II. Objects entrusted to employees and duties concerning them

With his or her signature the employee **confirms** that 1) he or she has received the objects **mentioned in article I**, which he or she needs for **the performance of his or her work**, and that 2) they are **in good condition**, unless article I states otherwise. He or she also confirms that he or **she has been informed** of the proper way to use them and of the safety rules concerning them, and that he or she is aware that in case **of loss or damage** of the objects, he or she is responsible for the cost of replacement or repair unless he or she can prove that he or she did not cause **said loss or damage**. The **employee further promises** that he or she will take **proper care** of the objects **entrusted to him** or her, and that he or she will do everything possible to **prevent** their loss, theft, destruction or damage, and that he or she will use them only for **fulfilling work-related duties** and that he or she will not allow other persons to use the objects.

Erasmus Paragraph:

Miša:

I'd like to go to the United Kingdom on Erasmus, specifically to Falmouth. I really like the country and the culture. It could also **offer/provide me a great opportunity** to improve my English. Their educational programme will allow me to **gain experience**, especially

(considering the fact that they have a large department).

in light of the fact that they have a different approach to theatre.

Experience (uncount.) = zkusenost

Experiences (count.) = zazitky

Pája:

Erasmus is a great opportunity to try living abroad for a longer time and to learn more about living on my own in a different country. I would like to go to Winchester in Great Britain because **of the chance of improving my English**. What is more/In addition, I would like to get to know the background of the English theatre, which could be really interesting. Winchester is located near London, so I will have the opportunity to visit interesting places nearby.

There is a chance of snow tonight.
I will have a chance TO DO SOMETHING

Anna from Prague ☺ :

If I am accepted in the Masters' program, I will go to the Czech Center in Paris, an organization which promotes Czech culture abroad. That's an internship, not study. I hope I will gain new experience, good for my future job. In addition, I'll meet interesting people. I will love to live in Paris, too.

Study exchange
Internship = work

~~Anna from Gottwaldov ☺ :~~

Bára:

I would like to do a 3-month internship at the Czech Center in Holland. I don't want to go on a study exchange because I would like to try practice my skills in an international environment. And I would like to improve my English. On the other hand, Holland is a nice, modern, Western country with a stable economy and politics which foster culture.

Karolína:

Because I have already been on an Erasmus internship, I would choose another kind of internship. I would like to go to Brasil ON

an internship with Aiesec. I would like to live and work in Sao Paolo because it is the business center of the country. I would like to speak Port. And I would like to visit Rio and see the architecture in the capital of the country designed by Oscar Niemeyer.

The internship lasts 3 months.

~~Nikola from Brno ☹~~

Monča!!!! :

I chose / have chosen two schools for my possible future Erasmus, and they were the Univ of Arts in Helsinki and ENSATT in Lyon. I have chosen the first one because it was the only that impressed me just by its website. I like the fact that since 2013, it is one big university of Arts which encompasses three separate universities. So there could be a nice cultural environment. The reason why I put it in first place was the fact that I need to improve my E maybe more than my Fr. On the other hand, I really like Fr and the Fr language, and Lyon impressed me a lot in the same way as the people from ENSATT did when they were here last year for the festival.
